The Daily Oregonian.

THURSDAY MORNING AUG 22 1878

LOOKING TO THE LEGISLATURE

It is said by the La Grande *Gazette* that there has been no fair legislation for the eastern part of the state for the last ten years. It adds We hope that no one can justly say the same after the adjournment of the next session but that Eastern Oregon senators and representatives may return crowned all over with glory by their legislative acts—for the direct interest of the productions of this country May they so legislate that on their return they will be met everywhere by the people who sent them there with the words well done thou good and faithful servants, enter thou into the hearts of thy constituency

This indicates a degree of expectation which we fear will be disappointed It is true there has never been any legislation that has done much for Eastern Oregon But our legislature has not been able to do much for any part of the state. We had an act that helped to construct the locks at Willamette falls, but this is all, and this was effected not by an appropriation of money, but by a grant of the proceeds of lands which previously had been regarded as an endowment for the public schools It is urged by the *Gazette* that the state now undertake the construction of a railway at the Dalles portage. This appears to be the one great thing which it expects of the representatives of Eastern Oregon.

Though Eastern Oregon is so greatly interested in this matter of establishing competition on the Columbia river it should not seriously expect things of the legislature which will hardly be realized. We agree fully with all the *Gazette* says about the folly of sending representatives to the capital "to sit on the ragged edge of party caucuses and barter away our rights and leave us bound to monopolies, for the poor recompense of being called good partisans" But what can the legislature do? To build the road at the Dalles will impose very serious burdens in addition to a taxation of which the people now feel the weight It would simply double our entire state taxes for two years. To go an debt for the object desired would be an expedient which the constitution prohibits To enact a law to compel the company now operating the road at the Dalles to pass all freight that may offer at specified rates would hardly attain the end sought, because experience in other states has shown that such legislation is not on the whole beneficial even when enforced. An act like this would of necessity apply to all railroads in the state, and the worst consequence of it would be to trammel future enterprise and prevent the construction of other railroads which are most urgently needed

When the question comes to be considered by those who must face its responsibilities it is likely to be found that the remedy desired is beyond the present reach of state legislation. It is not a pleasant thing to say that the state cannot perform all that its people require, but, as we have often said, there is a tendency in the public mind to expect of the legislature more than it can do for us. A legislative assembly is not only restricted by the constitution which is the supreme law but by the still higher law of circumstances and possibilities.

THE LITTLE GAME.

When Ah Sin, on that memorable August the third, put down the right bower which the same had been dealt unto Truthful James, there was mutual surprise, and then a just outburst of mighty wrath. Something like this is likely to happen now in regard to the pending election of senator It begins to be surmised and feared that an Ah Sin is going to turn up among the contestants with ample sleeves full of jacks. Various candidates are working with might and main for the prize, all of whom begin to scent the danger that they will be ruined at last by some demure person or other who is now professing to shrink from the contest and protesting that he doesn't understand the game. When the list of members of the legislature was made up shortly after the election, we found none which contained the names of more than fifty three Democrats But if we may judge from later developments, this was a great mistake One candidate counts up already twenty six votes in caucus, another twenty-three, a third eighteen, and so on, until the number of members is swelled to such proportions that we fear the caucus will be a very unwieldy body, in which it will be difficult to maintain harmony. THE OREGONIAN views the situation without bias or partiality. It feels confident of its ability to bear the disappointments and misfortune of the unsuccessful candidates with fortitude and resignation When a man is thrown out of a window it is advisable, as Johnson says somewhere in the Boswell conversations, to fall soft. We go further, and in a case of this kind think it even a duty. Since Dogberry gave the world the benefit of his wisdom, nobody has questioned that highly scientific observation that even two persons cannot ride the same horse unless one rides behind. Taking this truth as a basis for further inquiry, and the fact that the number who are now trying to ride the same horse is legion, it is clear that an Isaac Newton, or Sam Parker perhaps, would without much difficulty construct the theorem that the chances for any given one of them to ride before, would be in inverse ratio to the squares of their numbers In a lottery fortune often shows its caprice or spite by doing the most unexpected things. Nobody should wonder therefore if several candidates who are now making themselves prominent and who are professing to count up their votes to a number that approaches a caucus majority should find somebody whom they now don't condescend to think of playing it on them at last in a way they despise

Notwithstanding the unusually good prospects of the wheat crop in the upper Mississippi region early in the season the fact now appears that the crop is really a good deal below that of last year in quantity, while much of it is in inferior condition. Returns are published at Chicago from two hundred and sixty one counties in Iowa Illinois Wisconsin, Minnesota Nebraska Kansas Missouri and Dakota The aggregate acreage in the counties reported is 6 334 000, against 6 697,900 last year an increase of over 1 per cent The increase in acreage for these states on the basis of these returns is 9 9 0 against 7 758 000 last year The aggregate yield is estimated at 121 665,000 bushels against 124,348,000 bushels last year, a decrease of 5 758 000 bushels notwithstanding the greatly increased acreage. The states of Iowa, Minnesota and Wisconsin show a decreased production of 18 600 000 bushels at the time showing an increased acreage 90 The average yield per acre is 21 bushels against 17 80 bushels

SENSE FROM SEYMOUR

THE RETIRED STATESMAN AT UTICA DISCUSSES FINANCIAL AND LOCAL ISSUES—A SPECIE BASIS NECESSARY FOR THE WELFARE OF THE WEST—EVIDENCES OF COMMUNISM

[Report of a Recent Interview at Utica]

Gov Seymour said "The west deals directly with the markets of the world It sells more than it buys and to make the most money it needs a currency which is the standard of value used by the commercial world Moreover, the west gains enormous advantages from cheap transportation and he points out that since the paper currency has risen in value to near the standard of gold, the grain and provision products have been carried to the sea-board at less than one third the cost which had to be paid when the currency was inflated The west he says has not only gained greatly by cheap transportation but it has been enabled, with the currency nearly at par with gold to sell vast amounts of its products at a profit in the east and in Europe which could not have gone to either market under the inflation charges The west never said so much, nor bought what is needed so cheaply as in the latter years, when gold and greenbacks are at nearly an equal value He proceeds to show that western farmers can compete in the European markets with the grain and produce of Europe only if they hold to a sound currency, and that the whole west now commands and controls the eastern and European markets, and is gaining in wealth faster than ever it did before Inflation would cause it to lose all its present advantages Mr Seymour speaks as a Democrat and says it is a good thing to give all the dissatisfied elements an opportunity to be heard While he don't show as many he false still they prove that those who entertain them are in trouble, and they will bring out many facts which will be of value. The discussion of this year will be of great use to correct them They must be brought to light nor does he entertain any fears of serious results from the communistic or socialistic elements He points out that it is not the poor but the formerly wealthy who have suffered most in the long period of depression and that government bonds are not owned by capitalists but are held in the main by savings banks or life insurance companies as trustees for the individual masses. He says it is a curious fact that the wealthy manufacturers of New England and Pennsylvania have been preaching the doctrine of communism in urging that a class of American laborers must be protected and supported by taxing American citizens through tariffs

Very Great Disgust.

[From the Philad North American Rep]

The correspondence between Mr Gorham secretary of the congressional campaign committee and Mr Smith, collector at the port of Chicago, throws no new light upon the question of subscriptions for party purposes This administration offers the first example in the history of the country where there has been encouraged an insolent denunciation by the men who have reaped the rewards, of the system of partisan contribution, and we hope it will be the last. Politics are a part of government, but the manipulation of their machinery is not provided for except from private purses We do not believe that it is necessary that a man should contribute to political funds to retain his official position but we do believe that his privilege should end with his refusal and should not be extended to unlicensed abuse of the party and its leaders.

The Balance of Trade in European Travel.

[From the New York Tribune]

The heavy tide of passenger travel from New York to Europe during the past four months has been unprecedented, the total number carried on seventy five steamships, represented by eleven different lines between April 4 and August 1, being 20,333 against 18,038 in 1872 and 18,533 in 1873, the two heaviest seasons heretofore The experience of the present year has shown that the existing steamship lines are able, with the use of reserve boats, to transport double the number of passengers now carried, the facilities for travel being claimed as always in excess of the demand The eleven companies engaged in the trade employed during the season seventy-five steamers, which made one hundred and six ty eight trips

Hayes Pictured as a "Coward and Traitor."

[From Conkling's Utica Republican]

Hayes lacks the force of character, if he does not lack the impulse, to do right. From the beginning he has played the part of a coward and traitor. His conduct has naturally driven from him good men and drawn to him the evil, who designedly use him as a tool. He is weak and vain enough to receive their flattery, and brave and wicked enough to carry out their wishes as far as he dare His bravest act has been that of a coward, and his designing adherents are not shallow enough to give him credit for any higher quality. They goaded him to the suspension of Arthur and Cornell against whom nothing could be said save that they do not sympathize with Hayes' personal aspirations.

Philadelphia *Times*' The prevailing symptoms are that Mr Dennis Kearney, if given rope enough, will hang himself long before he has perfected arrangements for stringing up the bondholders

THE ROBBERY AND MURDER Up to late hour last night nothing had been heard of the perpetrators of the robbery and murder last Tuesday morning Numerous rumors have been received at police headquarters but on investigation they prove to be founds but on investigation they prove to be founds Every possible effort is being made to discover the whereabouts of the guilty parties but as yet no very satisfactory results can be chronicled As will be observed the common council have increased the reward from $250 to $1 000 for the arrest and conviction of the guilty parties Last evening a number of persons were sent out in different directions to watch the various roads and ascertain who passed either in going from or coming to the city With the very liberal reward offered there is scarcely a doubt but that the perpetrators of the terrible crime will be apprehended

ANNIVERSARY —The celebration in honor of the one hundredth birth day of T. L. Johnson the founder of Turnership and the seventh anniversary of the Portland Turn Verein which came off last evening at Turn Halle was not only largely attended, but was very enjoyable A very interesting programme which has been published was rendered which gave entire satisfaction to the large audience At the conclusion of the entertainment the seats were removed and a social dance was indulged in The affair was well conducted and will long be held in pleasant remembrance by those who participated and those who attended Excellent music was furnished by Profs Kay and Brenner's band, which lent additional interest to the occasion

ENGINE SOLD —The common council of this city has authorized the committee on fire and water to dispose of the Button & Blake hand fire engine now in the corporation shed, for the sum of $850 and the same has been sold to the fire department of Nanaimo, B C As the engine has no suction, the committee is also authorized to purchase one, and upon the machine is rubbed up and oiled, with the application of sufficient muscle she will do good work and may be the means of saving many times her cost to our English neighbors whom we are assured have paid no more for her than she is really worth

O'SHEA'S CONDITION —Yesterday morning Mr O'Shea's condition was improved, and there is strong probabilities of his ultimate recovery He is rational at times and occasionally converses with those around him on his supposed loss He reformed a gentleman who was watching with him last night that the robbers got away with about $1,000 in gold coin and some $400 or $500 in silver in addition to his jewelry, among which was a diamond set on which he had advanced $1,000 The robbers assorted the jewelry while running along and retained only the smaller and most valuable articles.

COLONIZATION SCHEME.—In the San Francisco *Post* of the 17th we note the following paragraph A number of Scandinavians met last evening at Bonanza hall, No 869 Market street, for the purpose of organizing a Danish colony in Washington territory and select a suitable tract of arable land for the colony About 16 000 acres will be required. Great care will be taken to admit none but honest and industrious men. Other meetings will be held and the roll will be kept open for signatures, although nobody will be debarred on account of race.

NEAT STORE BUILDING —Some time ago, by order of the common council, that certain parcel of land belonging to the city, and located on the south side of Yamhill street, between First and Second, about the middle of the block, was sold at public auction. Mr. S. Franz was the purchaser. Mr. Franz is causing a very neat store building to be erected on the land The building is to be two stories high, and is about 30x80 feet Before the great Augustafire the old wooden building belonging to Vigilance Hook and Ladder Co No 1 stood on the same site.

CITY.

THE ROBBERS AND MURDERERS.—Up to a late hour last night nothing had been heard of the perpetrators of the robbery and murder last Tuesday morning. Numerous rumors have been received at police headquarters but on investigation they prove to be found la ...tions. Every possible effort is being made to discover the whereabouts of the guilty parties but as yet no very satisfactory results can be chronicled. As will be observed the common council have increased the reward from $250 to $1 000 for the arrest and conviction of the guilty parties. Last evening a number of persons were sent out in different directions to watch the various roads and ascertain who passed either in going from or coming to the city. With the very liberal reward offered there is scarcely a doubt but that the perpetrators of the terrible crime will be apprehended.

ANNIVERSARY.—The celebration in honor of the one hundredth birth day of T L Jahn the founder of Turnership and the seventh anniversary of the Portland Turn Verein which came off last evening at Turn Halle was not only largely attended but was very enjoyable. A very interesting programme which has been published was rendered which gave entire satisfaction to the large audience. At the conclusion of the entertainment the seats were removed and a social dance was indulged in. The affair was well conducted and will long be held in pleasant remembrance by those who participated and those who attended. Excellent music was furnished by Profs. Kay and Brenner's band which lent additional interest to the occasion.

ENGINE GOES.—The common council of this city has authorized the committee on fire and water to dispose of the Button & Blake hand fire engine, now in the corporation shed, for the sum of $650 and the same has been sold to the fire department of Nanaimo, B C. As the engine has no suction, the committee is also authorized to purchase one ...ed when the machine is rubbed up and oiled with the application of sufficient muscle she will do good work and may be the means of saving many times her cost to our English neighbors, whom we are assured have paid no more for her than she is really worth.

O'SHEA'S CONDITION.—Yesterday morning Mr O'Shea's condition was improved, and there is strong probabilities of his ultimate recovery. He is rational at times and occasionally converses with those around him on his supposed loss. He informed a gentleman who was watching with him last night that the robbers got away with about $1,000 in gold coin and some $400 or $500 in silver in addition to his jewelry, among which was a diamond set on which he had advanced $1,000. The robbers assorted the jewelry while running along and retained only the smaller and most valuable articles.

COLONIZATION SCHEME.—In the San Francisco Call of the 17th we note the following paragraph: "A number of Scandinavians met last evening at Bonanza hall No 869 Market street, for the purpose of organizing a Danish colony in Washington territory and selecting a suitable tract of arable land for the colony. About 16,000 acres will be required ... will be taken to admit none but ... and industrious men. Other meetings will be held, and the roll will be kept open for signatures. Those of Danish origin will be preferred, although nobody will be debarred on account of race.

NEAT STONE BUILDING.—Some time ago by order of the common council, that certain parcel of land belonging to the city, and located on the south side of Yamhill street, between First and Second, about the middle of the block, was sold at public auction. Mr G Frank was the purchaser. Mr Frank is causing a very neat stone building to be erected on the lot. The building is to be two stories high, and is about 30x80 feet. Before the grass is out are the old wooden building belonging to Vigilance Hook and Ladder Co. No 1, used on the same site.

THEIR LITTLE PLAN FRUSTRATED.—The *Telegram* says: "Rumor has it that a gang of robbers (probably the same who committed the depredations yesterday) had laid plans for a raid upon the office of the O S N Co., but were defeated by the trenchery of one of their ...s. They were to make a raid upon the office just after the arrival of the upper river boat, while the safes were open, knock down the secretary and pocket the contents. The plan could have been easily carried out had the O. S. N. Co. not been forewarned.

INQUEST ADJOURNED.—Tuesday evening the coroner's inquest over the remains of young ...seph, was adjourned until yesterday morning at 9 o'clock. At the hour designated the inquest was resumed. Several witnesses were examined when the inquest was adjourned until to-morrow at 2 o'clock. This is done in the hope that by that time Mr. O'Shea will be so far recovered as to give testimony, which it is thought may afford some clue to the identity of the robbers.

WILL NOT WITHDRAW.—Mr. Ingalls, the agent, authorizes the statement that all reports to the effect that the steamship *Great Republic* will be withdrawn from the line between here and San Francisco are without foundation. He states that before the steamer shall discontinue her trips to this port, on account of the stage of water the owner will lighter her at Astoria and thus enable her to reach Portland.

TRIAL POSTPONED.—The case of the State vs. Grant, the Indian charged with the murder of Dennis Spellon, was called up in Justice Eyles's court yesterday for a preliminary examination of the prisoner. Owing to the exciting scenes of Tuesday in which the officers of the court were engaged, the witnesses in Grant's case had not all been found and the justice adjourned the further hearing until Friday, the 23d inst.

THE FUNERAL.—The obsequies of Louis Joseph, the unfortunate lad who was shot and instantly killed Tuesday morning by one of the men who robbed O'Shea's shop took place yesterday afternoon from the residence of his bereaved parents. The remains were buried in the Hebrew cemetery and were followed to their final resting place by the sorrowing relatives and friends.

CONTRACT AWARDED.—The bids for lighting, furnishing oil and keeping in repair the street lamps, were opened Tuesday, and the contract awarded to J. P Ladd, Esq his bid being $1 74 for each lamp per month. The following are the bids sent in: P W Davis ... W Flynn $2 39; J F Robinson ... R. Hendrie, $2 10; M Feaney $1 88; J ... Parham, $1 84; J. F Ladd, $1 74.

VERY ILL.—We regret to announce that Mr. G. Waters Carmen, an old an highly esteemed citizen, now lies dangerously ill at his home four miles back from Oswego at Spring Brook. Very slender hopes of his recovery are entertained. Mr Carmen is one of the old pioneers, he having come to this state in 1850.

NOT YET ARRIVED.—The steamship *Great Republic* got off St Helens bar Tuesday and started up the river yesterday. She came as far as Swan Island bar and in attempting to cross got aground. Up to a late hour last evening the steamer had not put in an appearance.

REAL ESTATE SOLD.—Yesterday Gregg & Stearns sold at their auction rooms lots 1 and ... in Block M corner of Salmon and Fifth ... with cottage to Wm Shankland down ... $1,400 and lot 2 at $1,000. Mr E Hall was the purchaser of both lots.

LECTURE.—The lecture announced to be ... at Good Templar Hall by Mrs May Thompson was largely attended and was an able and interesting effort. Her subject was "The Influence of Women in the Social Circle—United States—Canada." She will remain over Sunday and lecture on that evening next. Monday evening she will discuss the question of Female Suffrage. She will also lecture on the Pacific coast on the 7th of September.

BURGLARIES IN EAST PORTLAND

If reports are to be credited, East Portland is coming in for a share of burglaries. A few nights ago Mrs McDonald whose husband is employed on the Albany express train and is consequently out at home of nights was aroused from her sleep by a noise in the house. Mrs McDonald is a plucky woman and generally observes the precaution to have a revolver near the head of her bed within easy reaching distance and correctly suspecting that there was a burglar about the premises the lady arose quietly and discovering some one in the room she fired at him. Mr Burglar got from there without further invitation to leave rushing out at the front door and making for the gate. Mrs McDonald followed him and just as he was going out through the gate she discharged another shot which had the effect to accelerate his speed. Just then Mrs M heard a noise in the direction of the wood shed and looking there saw a second man making hasty tracks for the front gate. She fired at him which made him move with increased rapidity. The firing aroused a neighbor living across the street who thought some one was murdering Mrs McDonald and she called out to know what the matter was and to her great surprise and relief received the cool answer from the heroic woman. "Oh nothing ... but a lover now." Since the exciting adventure and plucky conduct of the woman has become known the neighbors all around vote her a brick. Mrs McDonald has furnished an example of coolness and determination under exciting circumstances which her timorous sisters and even weak nerved men may profit by. The lady is of the opinion that she wounded one of the burglars for a buggy was seen in the vicinity some time after the shooting occurred.

One night the present week some burglars attempted to enter the residence of Mr Partlow. He heard some one fumbling at the lock on the front door and taking a double barreled shot gun he was preparing to furnish Coroner Cook a first class subject for an inquest. His wife made a little noise which caused the burglars to hastily decamp before Mr Partlow could give them the benefit of a parting salute.

Early one evening a few days since, a lady had occasion to visit a neighbor who lived across the street and remain for a few minutes. When she returned she missed a little sack of gold dust, which she had left on the mantel.

BRIEF NOTES.

Oyster season upon us.

Steamer *City of Chester* off this morning.

There is an autumn like feeling in the air.

River will soon reach extreme low water mark.

Dramatic entertainment at Turn Halle this evening.

The city is filled with thieves and tramps. Look out for them.

Hon H H Gilfry and Col Tom Cann of Salem are in the city.

The steamship *Oregon* will sail for San Francisco to morrow at 9 A M.

No very satisfactory traces yet discovered of the perpetrators of the robbery and murder Tuesday morning.

The new superintendent of streets is kept very busy now also the milk white charger which he bestrides.

Owing to change in mail route THE OREGONIAN issued on Saturday arrives at Damascus on Wednesday.

The steamer *Olympia* will sail for Port Townsend and Victoria this (Thursday) morning at 6 o clock.

The ferry slip of the Oregon and California railroad at the foot of F street is to day being repaired. The old timbers are being taken up and new planking put in their place. An improvement much needed.

RELIGIOUS NOTES

[From the Advocate.]

Rev C V Anthony dedicated the new M E church at Tacoma on last Sabbath.

Rev A C Fairchild will preach on Saturday evening next at East Portland and hold quarterly conference. Also on Sabbath morning and evening. Love Feast on Sunday at 9 30 A. M.

Bishop Andrews spent last Sabbath at San Francisco, and will embrace the first opportunity to reach Portland. If he should secure a boat that leaves there any time between last Monday and yesterday he most probably will reach here by Saturday night.

S Mathew, writing from Fox valley under date 17th inst, says: "I have been holding a protracted meeting here for five weeks with the greatest interest that I ever knew in the midst of harvest. Many have been converted, many others are seeking. The interest is intense. We have received 38 names and will organize soon."

MOTHER HILL.—Under the above caption the *Calistogan Advocate* in speaking of Mrs Hill who is at present on a visit to Portland in company with her son Rev J B Hill of the M E. book depository of California says: "She is in her seventy sixth year yet able to travel with comfort. She returned last week from Yosemite valley where she had spent several days going to the various places of interest on horseback. She became ... to Alameda and has daily attended the temperance meetings, taking part in the exercises. She was one of the seven women who organized in Newark N J, the Woman's Christian Temperance Union—an organization which has grown and flourished and accomplished great good. Mother Hill has been president of the Newark branch from its organization—she is deeply interested in the cause and is a most exemplary and active worker. The Rev Wm Hill of this city was her pastor in the city of Newark N J many years ago, when he was a young man. Their meeting on the street in this place was very cordial and with tearful countenance."

Messrs Stanford Bowers & Stratton have purchased from the W U Tel Co the Portland Intelligencing Mutual Messenger and Delivery Limited for $1,000.

The best ... is undoubtedly that made at Farmer's Central Market.

RESOLUTIONS.

The following resolutions were read and adopted:

Resolved That notice be given that the common council of the city of Portland propose to construct a sewer in F street from the Willamette river to the west line of Fourth street, said sewer to be of terra cotta or iron pipe 15 inches in diameter from the Willamette river to the west line of North Second street, and 12 inches in diameter from the west line of North Second street to the west line of North Fourth street, and to be supplied with suitable inlets, catch basins, lamp holes, man holes, etc. The expense to be assessed upon the property benefited. It is understood that the property benefited includes all lots or parts of lots lying within 100 feet of said street between North Front street and a point 100 feet west of the west line of North Fourth street.

Resolved, That the action of the committee on health and police in offering on behalf of the city of Portland a reward of $250 for the arrest and conviction of the persons who committed the murder in this city on the morning of Tuesday, Aug. 20 18 8 be and the same is hereby approved and said committee is hereby authorized and directed to offer an additional reward of $750 making in all a reward of $1 000 for the arrest and conviction of said parties.

Resolved, That notice be given that the common council of the city of Portland propose to improve Yamhill street from the center of Third street to the center line of Fourth street by laying side walks and doing the necessary grading thereto.

Resolved, That C W Burrell, C M Lewis and P W Grisette be and are hereby appointed to estimate and determine the property benefited by the cost of the sewer in Alder street to be assessed to the several owners of the property benefited thereby.

Resolved, That Councilmen Simon Lambert and Opitz be and are hereby appointed a committee to investigate the accounts of the late police force from the commencement of the present administration to date; such examination to be made with a view of ascertaining the amount of money collected by the police force from all persons belonging to the city of Portland and the amount accounted for by him and to ascertain the general working of the police department.

Also to ascertain in the manner in which the delinquent assessment rolls now in the hands of said chief have been kept with regard to the crediting on said rolls of the several amounts of delinquent taxes received by him.

Also to ascertain the number and amount of delinquent licenses for the current and past quarters, said committee to have authority to examine and ... books and papers and to examine witnesses on any ... the parties involved and to employ such ... accountant to assist in such examination as the committee to report to the council a full and detailed statement of the result of their investigations and to make such suggestions as they may deem proper and necessary.

Resolved, That the city surveyor be and is hereby directed to survey the proposed lateral extension ... widening of North Second street from the north line of Ash street to its intersection with North Front street by adding five feet to each side thereof; mark the boundaries thereof and to make his report containing a plat of the survey of such street as proposed to be widened and a full and perfect description of the same and file the same with the city recorder, together with the probable cost of ... said street as proposed to be opened and ... to the council as soon as practicable.

AUTHORITY.

Resolved, That the committee on fire and water ... and chief engineer are hereby authorized to sell the Button & Blake hand engine ... with ... consent and approval of the mayor ... private sale at a price not less than $650.

Resolved, That the committee on streets and public ... and ... city engineer be ... and ... to ... and ... and ... and

Mail advices from San Francisco note no marked change in the financial affairs there Several millions in gold have been withdrawn from San Francisco on government account but there are a great abundance still on hand for all probable requirements. A singular feature has, however lately developed itself in the purchase of U S 4 per cent bonds Large quantities having been taken lately by banks and capitalists "Such investments," says an exchange sound the knell of high interest rates in California, and sufficiently show the very light demand for money in this market at the present time That the tendency of the rates of interest is generally downward as a country grows older has been the rule and the Pacific coast is beginning to feel the effects of age in this respect. Is not to be regretted as the profits in almost every other kind of business have been reduced to a low figure

The number of failures throughout the eastern states during the month of July is reported to be much in excess of the number reported in June but the aggregate amount involved is less, facts which are accounted for on the assumption that numerous small debtors are now improving the last opportunity for relief while the comparatively meager liabilities certainly indicates a healthier condition in real estate manufacturing and mercantile interests.

Concerning the apparently near approach of specie resumption, the San Francisco *Commercial Herald* says

It is now manifest that Mr Sherman is striving sedulously to make assurance doubly sure and by so doing head off any attempt to prolong the date of resumption Whatever of mercantile depression or disaster might reasonably be expected to attend the process of resumption has already been inflicted. Experience has sufficiently demonstrated that at the concluding scenes of currency inflation and the commencement of return to a sound specie basis business is placed in a more or less critical condition but in our case the work of resumption was practically commenced ten years ago and has been going on in regular stages ever since Dun, Barlow & Co, in their statement of mercantile failures do not attribute any portion of the large increase in the first half of this year to the approach of resumption but assign other causes that are equally affecting other countries The secretary has even laid San Francisco under contribution for several millions in gold and some of our banks have invested largely in 4 per cents rather than keep so much idle capital in their vaults The benefits that must accrue to every interest of this country by transacting its business upon the basis of a sound metallic and equable currency, bearing the same value in every section, and free from the wild fluctuations of irredeemable paper money of constantly changing volume are so great as to be beyond estimate at the present time Mr Sherman's remark, that if congress would only let him alone he would effect resumption by the appointed time seems now about to be verified beyond all question What the greenbackers are going to do about it will be determined at the December session of congress Failing success then they will be crushed for all time to come.

New System of Wagon Brakes.

TRULLINGER PATENT BRAKE.

NO SHOES TO WEAR OUT TIRES!

No Brake Bar used. Will hold a Wagon anywhere from Backing or going Forward.

THIS NEW BRAKE NOW BEING INTRODUCED by the inventor J C Trullinger is a combination of friction gear up plied to the hub of a wagon It is simple and light yet has more strength and durability than any other wagon brake now in use It is so attached to the wagon that it is out of the way of the gearing yet always reliable and at hand when required Any teamster or mechanic can see at once its utility and effective force to hold a load on a down grade or to prevent horse backing when required The Brake is made entirely of iron no wooden part being necessary as no part of it is affected by wet and muddy or icy roads.

We invite critical examination as we believe its merits can be demonstrated to any party who uses or understands a wagon brake

R. PAUL I. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach bowels, liver and kidneys as well as all diseases of the blood and skin he has been master of And never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for the great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward proper medicine or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the est Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to cheat them away to other so-called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door
